

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## BOOK PRODUCTION IN 1901

# BOOK PRODUCTION IN 1901

## IN THE UNITED STATES.

THE opening year of the twentieth century was inaugurated in its spring months by a perfect flood of books, that increased in volume through the fall, reaching a climax, amazing in numbers during the holiday season. The year 1901 can scarcely be considered notable for the number of its important original works, though there were abundance of excellent and even seemingly permanent additions to every class of literature. It was rather a year conspicuous for the making of books, than the publishing of books—if we may make that difference—a year of new editions of standard works or finely illustrated editions of favorites of former years, as well as of low priced and popular editions of books or sets of books always in demand. Added to the constant stream of new novels coming from leading publishers and authors, the market was crowded by the manufacturers of books with new issues of standard English and American novels, that had outlived their copyright limitations, and cheap paper copies of a poorer class of fiction, that included a great deal of utterly worthless material. In spite of the admitted rubbish in the count of fiction, the literary reputation of the year rested largely upon its novels—and its biographical works. While many of the novels promise to be less short-lived than others, and hold forth the expectation of perhaps being included at a future day among “the books for all time”—the biographies, if less in number, may be spoken of with more confidence. They belong to the most delightful and instructive class of literature. Few of them but are valuable and interesting, a large number being acknowledged as authoritative and definitive.

Table No. 1 which follows gives in classes the figures, approximately, of the book production in this country in 1901, with those of 1900 for comparison. Almost all of the departments show an increase—all naturally being influenced by the great activity of the year. There is a slight falling off in numbers, from the previous year in the classes of Education, Law, and Political and Social Science, but all others are far in advance in their totals, of any other publishing year. Notably so are the classes of Fiction, Literature and

Collected Works, Juvenile Fiction, Poetry, and Biography.

Table No. 2 attempts to show the number of books manufactured in the United States in 1901—first those by American authors, second those by English or other foreign authors made in this country according to the demands of copyright law, and third the books in English imported bound or in sheets; these three classes comprising the book production of the United States in 1901. The first and second classes are almost all copyright books—though strange to say, not all books made in this country, whether from

American or foreign author, are invariably copyrighted. This table like the former, scarcely claims to be exactly correct, as it is impossible always to trace the history of a work, from its author to its final publication. The table shows 4701 books by American authors against 3626 of 1900; 2122 books by English or other foreign authors (made here) against 1388 of 1900; and 1318 books, or sheets imported, against 1124 of 1900. The reprints were as usual the largest in Fiction, amounting to 1028 books.

#### REPORT OF THE REGISTER OF COPYRIGHTS FOR 1900-1901.

THE report of Thorvald Solberg, Register of Copyrights, for the fiscal year ending June 30, 1901, appears as an appendix to the report of the Librarian of Congress, just issued, for the same period. It presents the following facts:

##### COPYRIGHT ENTRIES.

The total number of entries of titles during the fiscal year was 92,351. Of this number 83,813 were titles of productions of persons citizens or residents of the United States, and 8538 were titles of productions of persons not citizens or residents of the United States. The fees for these entries were: United States, \$41,906.50; foreign, \$8538, or a total of \$50,444.50.

Of the foreign entries, 1995 were with certificates, as well as 21,810 of the United States entries, or a total of 23,805 certificates, at fees amounting to \$11,902.50. In addition, 1334 copies of record were furnished at fees amounting to \$667; 550 assignments were recorded and certified at a charge of \$641, and search fees charged to the amount of \$32.50.

With the beginning of the new century the record books were divided into nine separate series, to correspond with the nine classes of articles named in the copyright law—a plan that has resulted in more systematic and effective record, and that supplies, at the same time, an automatic classification and enumeration of entries.

##### COPYRIGHT DEPOSITS.

The various articles deposited in compliance with the copyright law, which have been receipted for, stamped, credited, indexed, and catalogued during the fiscal year amount to 162,283. This is a gain of 20,839 over the previous fiscal year.

There has been a steady growth in the number of these deposits during the last four fiscal years, the total deposits being in each year respectively. 112,805; 120,143; 141,444, and 162,283.

Comparing the deposits with the entries it is found that only in the case of periodicals is the deposit complete, although in music it is substantially so, the deposits amounting to about 99 per cent. of the entries, while in the case of the various entries necessarily classified under the term "book," only about 70 per cent. are completed by deposit as required by law—a large proportion of the entries probably being for projected works produced later or never completed at all—and in the case of the remaining articles about 80 per cent. of the entries are perfected by deposits.

These deposits for the four years are classified as follows:

Table of articles deposited during four fiscal years, 1897-98, 1898-99, 1899-1900, 1900-1901:

## COPYRIGHT CATALOGUE AND INDEX.

The technical record work of the office is summarized. All titles filed for record are carefully indexed, each entry having a card under the name of the proprietor; and books, periodicals, dramatic compositions, and maps have, in addition, title or author cards. These index cards, numbering 115,025 for the fiscal year, become part of the permanent indexes of the Copyright Office, and are also used as the copy for the Catalogue of Title Entries printed weekly. A complete volume index is now supplied with the catalogue, which it is hoped to continue.

"The copyright entries from July 10, 1870, to August 31, 1901, number 1,238,304. The index to these entries consists of upward of 700,000 cards, and more than 100,000 cards are added annually. These cards index the entries primarily under the names of the proprietors of the copyrights, and it is believed that this index of proprietors is substantially complete from July, 1870, so that under the name of each copyright proprietor there is a card or cards showing the titles of all articles upon which copyright is claimed. In addition to cards under the proprietors' names, cards are now made: For books, under the names of their authors; for anonymous books, periodicals, and dramatic compositions, under the first words of the titles (not a, and, or the), and for maps, under the leading subject words of the titles, *i.e.*, the names of the localities mapped.

"No attempt is made to index the titles as such; that is to say, in order to show that any given title has been used. So long as the copyright law does not secure the use of a registered title to some one person to the exclusion of all others, there would seem to be no justification in adding to the already large index, upward of 100,000 cards annually, simply to show that certain forms of words have been used by one or more persons as designations for books, maps, music, photographs, etc., registered for copyright protection."

## COPYRIGHT OFFICE WORK.

The status of the work of the office is reported upon, both for current routine, and arrears. All current work has been kept well up to date and effective headway has been made toward the systematic arrangement of the great mass of material accumulated during the years prior to July 1, 1897.

Appendixes to the report give tabulated statistics of deposits, expenses, and similar details.

## COPYRIGHT LEGISLATION.

In conclusion Mr. Solberg touches suggestively upon the need of further copyright legislation. He says:

"I have frequently had occasion to call attention to the need for new copyright legislation. The law now in force consists of the act of July 8, 1870, as edited to become title 60, chapter 3 of the Revised Statutes, and ten amendatory acts passed subsequently. Naturally, there is lacking the consistency and homogeneity of a single well-considered copyright statute. The existing legislation is antiquated; inadequate in some directions, inconsistent and confusing in others. The Attorney-General of the United States, in a recent opinion concerning some provisions of the copyright law, after setting out the precise stipulations of the statutes relating thereto, says: 'Under this kind of legislation it is impossible to arrive at any satisfactory conclusion as to what Congress really did intend by it.' The expression of such an opinion by the head of the judicial department of the Government is sufficient evidence that revision of the law is urgently required.

"Our copyright laws are based upon antiquated models—the early English copyright statutes—and the amendments made from time to time to the original enactment have been aimed at improvement of the law in certain particulars rather than a thorough revision, and have not given to it a form corresponding to modern ideas of legislation relating to literary and artistic property.

"No attempt at a general revision of the law has been made since that by the commissioners appointed in 1868 to revise the general statutes, and their treatment of copyright was necessarily a partial one, that being only one of a great many subjects requiring consideration. Many and greatly diverse interests are affected by copyright legislation, and it would seem more probable that each and all of these would receive proportional attention if the task of preparing a codification of the copyright laws were intrusted by Congress to a commission adequately representing the different interests concerned, and that a project of law thus formulated would more likely be on a par with the existing progressive copyright legislation of other countries."

of Great Britain during the past year, prepared by the London *Publishers' Circular*, shows a decrease of about a thousand volumes from the total of 1900. This decrease would have been larger but for the great

quantity of new fiction issued during the last two months of 1901. In 1900 new novels issued in November and December numbered 313 and 95; in 1901 they numbered 372 and 125, respectively. The total number of new novels published in 1900 was 1563; in 1901 it was 1513, only fifty fewer. Poetry shows a fall of more than a hundred. Of new works on voyages and travels the number is precisely the same as in the previous year, but in reprints there is a fall of forty. In 1900 history and biography (including South African events, territories, races and notabilities) composed one of the few classes which showed an increase; now it shows a decrease of nearly two hundred.

## FRANCE.

THE *Bibliographie de la France*, in its issue for December 28, 1901, gives the following totals of the number of books, musical compositions, engravings, etc., published in France during 1901. The number of books recorded was 13,053, or 309 books less than in 1900. The number of musical compositions recorded was 6550, showing an increase of 640 over those of 1900. The number of engravings, lithographs and photographs was 778, a decrease of 174 over those recorded in 1900.

# Bibliographic Publications.

For all American books as they appear, take **THE PUBLISHERS' WEEKLY**; for an hour's glance each month at the important books and magazine papers, take **LITERARY NEWS**; for library matters take **THE LIBRARY JOURNAL**; for magazine articles in general, consult **THE ANNUAL LITERARY INDEX**; for books in print or issued of late years, see **THE AMERICAN and ANNUAL CATALOGUES**.

**THE PUBLISHERS' WEEKLY.** Established in 1872, with which was incorporated the *American Literary Gazette and Publishers' Circular* (established in 1852). Recognized as the representative of the publishing and bookselling interests in the United States. Contains full weekly record of American publications, with monthly cumulative indexes, etc. Subscription, \$3.00 a year, postpaid; to foreign countries, postpaid, \$4.00 a year; single numbers, 10 cents, postpaid.

**THE LIBRARY JOURNAL.** Official Organ of the American Library Association. Chiefly devoted to library economy and bibliography. Established in 1876. Published monthly. Subscription, \$5.00 a year, postpaid; single numbers, 50 cents. Price to Europe, or other countries in the Union, \$6.50 a year; single numbers, 25. (*Literary News is sent free to subscribers of THE LIBRARY JOURNAL.*) Teachers may be interested in the "School Number" published in the spring of each year.

**GENERAL INDEX TO THE LIBRARY JOURNAL**, vols. 1-22, 1876-1897. Arranged to serve as an index to succeeding volumes or for other sources of professional information. 4°. in sheets, or paper binding, \$2.50; A. L. A. half leather, \$3.00.

**LITERARY NEWS.** A Monthly Journal of Current Literature. Contains the freshest news concerning books and authors; lists of new publications; reviews and critical comments; characteristic extracts; sketches and anecdotes of authors; bibliographical references; prominent topics of the magazines; portraits of authors, and illustrations from the newest books, etc., etc. Subscription, \$1.00 a year, postpaid; single numbers, 10 cents.

**THE AMERICAN CATALOGUE** of books in print and for sale July 1, 1876, compiled under the direction of F. LAYROLD, and its supplements, 1876-84, 1884-90, 1890-95, and 1895-1900, compiled under the editorial direction of R. R. BOWKER, aims to present all the bibliographical features of the books in the American market, arranged in the first part alphabetically by both *authors* and *titles*, and in the second part alphabetically by *subjects*.

The Catalogue and its supplementary volumes form the only approximately complete guide in existence to the American books of the day, so arranged as to make reference easy from whatever direction the inquiry may come, whether from that of the author, or the title, or the subject. It not only furnishes the desired information about any particular book of which the consulter is in search, but shows what others there are by the same author or on the same subject in which he is interested. To the bookseller, therefore, it is valuable both in filling orders and in stimulating business; to the librarian, in supplying gaps and proportioning his collection; and to all who are practically concerned with books, in furnishing information which nowhere else is obtainable by so convenient a method, if obtainable at all.

The author-and-title volume of the 1876 volume is out of print. A limited number of the subject volume may be had in half leather binding at \$15.

The volume covering the period 1876-84 is also out of print.

These lists, all bound in one volume arranged alphabetically for ready reference, with marginal index, guiding the finger at once to the right letter, present in their combination so convenient and time-saving a working-tool as to make it indispensable to every one who has any interest in the purchase or sale of books. **THE ENGLISH CATALOGUE [Annual]** giving full titles classified under author and subject in one strict alphabet, with particulars of the size, price, month of publication, and name of publisher of the books issued in Great Britain and Ireland, in the calendar year, being a continuation of the "London" and "British" Catalogues. TO meet a wider demand than has shown itself for "The Annual American Catalogue," it is proposed to replace that publication this year with

## The Annual American Catalogue Cumulated, 1900-1901

including in one alphabet the short title lists of the books of 1900 and 1901, giving the information by author, title, subject and series. This cumulation is to continue annually until a five-yearly volume of "The American Catalogue" in its new shape is reached. It is hoped that this form of catalogue will prove a desirable, practical working tool for the trade, supplementing as it will do, from year to year, the last issue of the five-yearly "American Catalogue," without the need of consulting several alphabets in several volumes.

8vo, cloth, - - - \$2.00

if ordered and paid for in advance.

Should there be enough demand for the "Annual Catalogue" as heretofore published, with full titles and annotations of the books for 1901, bound in half leather, at \$3.50, or in sheets at \$3.00, we should be prepared also to continue that publication.

THE ANNUAL AMERICAN CATALOGUE, Cumulated, 1900-1901, which has been unavoidably delayed, will be ready this month. Orders, specifying in which form the Catalogue is desired, should be addressed at an early date to
